TRACKER OZON

UNCOMPROMISING STYLE AND VERSATILITY FOR OUTDOOR ACTIVITIES. TRACKER OZON OFFERS A UNIQUE COMBINATION OF INNOVATIVE DESIGN AND FLEXIBILITY.

With Tracker Ozon we take Tracker to the next level. The same unique features, uncompromising in performance, design and flexibility. The lens is larger than the one on Tracker, which gives more coverage and maximize the protection against the sun. With the detachable side shield you are able to add even more cover in extreme conditions. Tracker Ozon is suited for outdoor sports where you are exposed to very strong sunlight like high altitudes, but works just as well in the city or while sitting at an outdoor café. The glasses can be used as full or half frame, through the removable and replaceable part of the front so called "Jaw bone".

TRACKER OZON 9024 // 100% UVA and UVB protection // Unbreakable Polycarbonate lenses // The frame is made of Grilamid (TR90) that provide high flexibility and low weight // One extra pair of contrast lenses // Attachable side shields // Adjustable friction rubber nose pad // Adjustable temple tips in rubber wire core // 20mm strap // Hard protective case with pockets for extra lenses // Cleaning cloth // Complies with European standard EN ISO 12312-1:2013

<p>JAW BONE TECHNOLOGY & SIDE SHIELD</p> <p>Change both appearance and functionality of the glasses with the supplied jaw bone and side shield.</p> 	<p>WITH EXTRA LENSES & WITHOUT JAW BONE</p> <p>Change the lenses according to the weather condition.
