VELO XT

AN EXCELLENT COMBINATION OF STYLE, COMFORT AND VERSATILITY. VELO XT IS THE ULTIMATE FRAME FOR CYCLING AND OTHER OUTDOOR ACTION SPORTS

An improved and enhanced version of our already famous Velo. We call it Velo XT. It's top brow rides high on the face to keep out of the cyclist's eyeline. The large carved lenses, shield eyes from sun, fast moving air and bugs. Frame is now made with high quality Grilamid (TR90) for enhanced durability and lighter weight. Softer and more flexible temple and nose peices enhance its already famous fit and comfort. Besides biking, Velo XT also fits great for cross country skiing, running, etc.

VELO XT 9026 // 100% UVA and UVB protection // Unbreakable Polycarbonate lenses // The frame is made of Grilamid (TR90) that provide high flexibility and low weight // Two extra pair of lenses (contrast and clear) // Adjustable friction rubber nose pad // Adjustable temple tips in rubber wire core // Hard protective case with pockets for extra lenses // Cleaning cloth // Complies with European standard EN ISO 12312-1:2013

CLEAR EXTRA LENSES

Change the lenses according to the weather condition. Use clear lenses for dark conditions such as sunset, night or cloudy.

ORANGE EXTRA LENSES

Change the lenses according to the weather condition. Use orange lenses to increase contrast and brightening up the landscape. Also good for bright days. Allround lens.

ATTACHABLE STRAP

Make sure that your glasses stays in place with the adjustable neck strap that is included.

ADJUSTABLE NOSE PAD AND TEMPLE TIPS

Customize your glasses for best fit. Adjustable temples and nose pad for maximum comfort.
