ALL THE FEATURES

PHOTOCHROMATIC

The lens transforms between light to dark. This provides the most comfortable vision for the wearer in the shade as well as in the bright sun.

WHAT'S IN IT FOR ME?

Don't change the lens, let the lens do the changing for you. Fantastic transition from light to dark, and back to light again

ANTI-SCRATCH

This drastically reduces the appearance of thin hairline scratches

WHAT'S IN IT FOR ME?

Less scratches, keeps your lenses in perfect shape

OLEOPHOBIC

This greatly helps keeping the lens clean from stains on your glasses.

WHAT'S IN IT FOR ME?

Much harder to get dirty lenses
Much easier to clean dirty lenses - if you manage to get them dirty!

MULTICOATING

Providing a minimizing effect of glare and giving you perfect visual qualities.

WHAT'S IN IT FOR ME?

Best possible vision and an absolute minimum of disturbing light, even in the most demanding conditions

HYDROPHOBIC

The water simply runs off, keeping the wearer focused on the activity at hand.

WHAT'S IN IT FOR ME?

The closest thing to windshield wipers - the hydrophobic coatings keep rain, snow and water drops off the lens

SHATTER PROOF

Unbreakable lenses to resist impacts without causing any damage to your eyes.

WHAT'S IN IT FOR ME?

Best possible vision and an absolute minimum of disturbing light, even in the most demanding conditions

ANTI-FOG

Eliminates condensation and moisture on the lens, ensuring optimal visibility in every condition

WHAT'S IN IT FOR ME?

A long lasting fog free vision

UV PROTECTION

100% protection against harmful UV rays.

WHAT'S IN IT FOR ME?

UV Protection is a must for keeping your eyes healthy and strong
